## MAYSVILLE WILL SEE NO SHORTAGE OF ICE THIS YEAR

Maysville Ice Company has the situation well in hand and promises plenty of the frozen water.

There will be no ice shortage in Maysville this year according to Mr. W. Hall Strode, of the Maysville Ice Company.

Several of the towns and cities nearby in Kentucky and other states are urging upon the people to be careful not to waste their ice in any way as an ice shortage is threatened. The shortage of the chemicals necessary in the manufacture of ice is the prime cause for the shortage and the labor question also figures in this summer time necessity as it does in most everything else just at this time.

In talking to a Ledger man yesterday, Mr. Strode said his plant was in better condition this year than it had been for many summers. The large storage rooms only recently built at the Maysville Ice plant are full of ice and the plant is working fine this year. Mr. Strode says that his company has on hand a sufficient supply of the necessary chemicals to carry them through this summer and that his storage rooms are well filled so that any trouble that might arise in the plant might be remedied and the city would still be supplied with plenty of ice.

Despite these conditions however, it is pointed out that no ice should be wasted as has been done all over the country before the nation entered the war and conservation became the watchword of those left at home.

**GIBBONS FARM SOLD**  
Sherman Arm, real estate dealer, yesterday sold the W. D. Gibbons farm located on the Minerva and Dover pike to Mr. H. W. McDonald. The purchaser will move to the farm about March 1, 1919. Consideration private.

Colonel Thomas Winter returned yesterday from an auto trip through Central Kentucky. He also spent several days at the Carlisle Springs at Dry Ridge, Ky.

Try a pound of T. G. Butter.

## NEIGHBORHOOD QUARREL AIRED IN POLICE COURT

Rather Exciting Trial in Local Court Yesterday When Women Aired Trouble Over Their Children.

Mrs. Lee Stribling, who lives just east of Limestone bridge, was defendant in a case in Police Court yesterday afternoon during which a neighborhood quarrel was completely aired.

The warrant in the case was issued on complaint of Mrs. Edward Hoops, who charged that the defendant had made threats against her and at the hearing of the case it developed that the entire trouble arose over the whooping cough question. Both women claimed that their children had been abused and threatened by the other woman and Mrs. Stribling, on the stand, admitted herself that she had told Mrs. Hoops that she would whip her.

There were several witnesses in the case and it was rather lengthy and at times very exciting as such cases always are. The husband of the defendant was charged during the case with doing little work and in his address City Attorney Daly asked that he be investigated and if he was not working that a vagrancy warrant be issued for him.

After hearing all of the evidence, Judge Whitaker placed Mrs. Stribling under a peace bond and admonished the husband.

## DR. J. C. ACHESON'S ADDRESS

At the First Presbyterian Church Friday night Dr. Acheson of Pittsburgh, who has just returned from France will speak.

Dr. Acheson is President of the Pennsylvania College for women. He was asked to go to France to view and report on V. M. C. A. and Red Cross work.

He is one of the most brilliant speakers before the public and will tell things he saw for himself on the battle front in France.

He has been speaking through Kentucky and other states since his return and any coming to hear him will be richly repaid. I can give the most unqualified guarantee as to the importance and charm of his addresses.

JOHN BARBOUR.

Preaching at the Lutheran Church Sunday at 10:30 a. m. by Rev. W. H. H.

## PRESSURE IS KEPT UP ON RETRAITING FOE

Important Advances Made By Allies—Violent Attacks on Both Sides Of War's Line.

With the American Army in France, July 24—Both sides of the pocket in the German lines have been scenes of the most violent attacks and counterattacks throughout the past night and morning. Few fluctuations of the line have occurred but in all these they favored the Allies who kept up an incessant pressure on the retreating Germans who are endeavoring to cover the withdrawal of the bulk of their troops from imminent danger.

Southwest of Rheims the Germans have shown their disappointment over their inability to hold with their crack divisions their positions around Virgny and have turned all their available artillery on the British and French who drove them out, but the enemy could not prevent a still further advance today.

Paris, July 24—Highly important gains by the French and American forces on the Aisne-Marne front are reported in the official statement of the War Department tonight. In the center of the line an advance of nearly two miles was made. Desperate engagements were fought in the direction of Epieds and Trugny-Epieds which villages the Americans again recaptured from the Germans. To the north of Epieds, the Franco-American line is now beyond Courpail. The statement reads:

"Between the Ourcq and the Marne our attacks, resumed this morning, were continued successfully throughout the day.

"On our left we held Armentieres and Chatelet Wood beyond which we advanced as far as as Brechy, which we occupy.

"In the center Franco-American troops made an advance at certain points of more than three kilometers.

"Desperate fighting has been in progress in the region of Epieds and Trugny-Epieds, which, retaken by the Germans yesterday at the end of the day, were reconquered again in a counter attack by the Americans. North of these two villages we have carried our line beyond Courpail.

"On our right we made progress in the forest of Fere, north of Charleville and Jaulgonne. Further to the east we extended our bridgehead at Trelopp and occupied the southern corner of Ris forest.

"In this sector we captured five machine guns and about 50 machine guns as well as considerable material.

Between the Marne and Rheims there were intermittent artillery actions.

## DEFERRED MEN MAY BE GONE OVER BY BOARD

Men Given Deferred Classification Because of Their Wives Alone May Be Moved Into Class One.

Several of the local Exemption Boards in Cincinnati have begun a closer combing out of their deferred classes and under recent rulings of the Provost Marshal General's office they have begun the moving up of young men from Class 3 and Class 5 into Class 1 who have been given deferred classification because of dependents and yet have no children to support.

It has been pointed out that it is hardly fair that men with wives and children to support should be placed in the same classification with men married and yet with no children and whose wives, unhampered by the care of children, could get into some productive work and make their own living should their husbands be called to war.

It became known yesterday that there is a possibility of a closer combing out of the deferred classes by the Mason County Board working along these same plans and while it was not definitely announced that such a step would be taken, it was intimated by members of the board that this action was being seriously considered and might be undertaken in the near future.

It is understood that in deferred classes in Mason county there are many men who have been deferred because of a dependent wife and yet no children. Should the Mason County Board undertake the same step taken by the Cincinnati boards and boards in other cities, it is said that many Mason county men would be affected.

Mr. Sherman Arm, local real estate dealer, yesterday sold the old Mathews home in East Second street to Mr. Thomas L. Ewan. It is likely that Mr. Ewan will occupy this home in the near future.

## O'CONNELL TO BE GIVEN HEARING ON MONDAY

Mason Man Charged With Serious Offense Says He Grew Out of a Jest—Released Under Bond.

William O'Connell, who was arrested at his home near Lewisburg on Tuesday afternoon by United States Marshal Vest under the Espionage Act and taken to Covington, returned home yesterday afternoon having given bond for his appearance before Mrs. Bell, United States Commissioner at Covington on next Monday.

O'Connell says he does not entirely remember the incident out of which the charges against him grew but says he remembers that a few days ago he was "kidding" with a young man who had just joined the United States Army. He says he did not mean anything disrespectful to the country by his remarks and that they were all said in a jesting way.

He insists that the charges were made by the young soldier because he misunderstood his manner. The young man with whom O'Connell talked of to be a stranger, and not the young man he thought he was conversing with.

The soldier who made the charge against O'Connell causing the issuance of the Federal warrant is now located at Fort Thomas and will be the witness against him at the preliminary hearing in Covington on next Monday.

## PRO-GERMAN TALK STARTS FIGHT; ARREST IS MADE

George Kinney Was Arrested Last Night Following a Fight Brought About by His Making Alleged Pro-German Statements.

Police last night arrested George Kinney on Market street on a charge of disorderly conduct and he was lodged in jail and will be given a hearing in Police Court this afternoon.

It is charged by witnesses in the case that Kinney made pro-German talk in the soft drink saloon of George Dale in Market street and that he was ordered from that place because of those statements. When he reached the sidewalk in front of the saloon he is said to have continued his arguments that Germany would certainly win the war and that the Kaiser would make all the American soldiers climb a tree when Mr. Arthur Dale went onto the street and told him to get away. Kinney is alleged to have made some slighting remark about the United States army to Dale and Dale struck him knocking him to the sidewalk.

The police were called and Kinney was lodged in jail. He is said to have been under the influence of liquor and his alleged pro-German statements will be gone into today.

## ENGAGEMENT IS ANNOUNCED

The engagement of Miss Helen Fancett and Mr. Buford Ritchie, of Covington was made Monday.

The bride-to-be is the daughter of Mrs. Mary F. Ritchie and the young man is the son of Mrs. Agnes C. Ritchie and a nephew of Mrs. Thomas Hoyer, of this city. He is connected with a large Cincinnati construction company and both the young people are popular in Covington society. The marriage will be an event of early August.

## BAPTIST SUNDAY SCHOOL ON PICNIC

The Baptist Sunday School will picnic today in Anderson's woods on top of the Maysville hill. The students and teachers of the school left this morning and will spend the entire day in the woods. Games will be played by the youngsters and a Hoover lunch will be served at noon.

## TOPSY AGAIN IN THE HANDS OF THE LAW

Leahle Leavell, better known in police circles as Topsy, was arrested last night by the police on a disorderly conduct charge. She will be given a hearing this afternoon and it is understood that another effort will be made to get her out of the city.

## NOTICE

## MANY U-BOATS SAID TO HAVE AIDED SINKING

From Three to Eight Submarines Said to Have Been Concerned in Sinking of Justicia—Fight Lasts All Night.

London, July 24—From three to eight submarines are said to have been concerned in the attack of the White Star liner Justicia sunk off the north Irish coast Saturday, according to the Daily Mail, which says the fight began at 3 o'clock Friday afternoon and lasted intermittently until Saturday morning. The ship sank about 1 o'clock in the afternoon after nine torpedoes had been fired.

When the liner was first struck the torpedo boat destroyers which accompanied her tried to attack the enemy and dropped many depth charges, while patrol boats stood by the ship and a tug took her in tow.

The second and third torpedoes were fired about 5 o'clock in the afternoon. Both missed their marks, one going ahead of the steamer and the other ast. Two hours later, another torpedo was seen coming, but when it got close a gunner on the Justicia with extraordinary aim, hit it clean and exploded it. All was quiet until eight o'clock in the evening when the fifth torpedo was sighted. The gunners on the Justicia placed their shots so near it that the torpedo was deflected and missed its mark.

Most of the crew by this time had been transferred to other ships which had remained near the liner all night.

The Justicia was well on her way to port Saturday morning, when toward 8 o'clock the enemy again were heard at work as the sixth and seventh torpedoes went past. Two hours later a submarine fired the eighth and ninth torpedoes and one of them struck forward and the other ast.

## INVITATIONS TO VISIT CONCRETE BOAT RECEIVED

Members of Reception Committee Recieve Cards Urging Them to Meet the First Concrete Boat On the Ohio River.

The members of the Reception Committee appointed recently by Mayor Thomas M. Russell to meet the concrete motor boat "Concrete" when she arrives here on next Sunday on her way down the Ohio, received beautiful printed invitations yesterday through the mail from the promoters of the trip urging them to visit the boat and take a ride with the skipper.

The "Concrete" will arrive in Maysville early Sunday evening and it is expected that there will be quite a good sized delegation at the wharf to welcome her. She will take several trips out of the local harbor that evening giving many local people an opportunity to ride in the first concrete boat to traverse the Ohio river.

The boat will leave Maysville about 7:30 o'clock Monday morning for other points down the river and it is to be hoped that the Naval officers in charge of the small craft will leave with a good impression of Maysville.

At some up-river points the cities are holding receptions for the crew and at others special programs are arranged. This is not possible in Maysville but it is hoped that all will endeavor to have the young men interested in joining the United States Navy visit the boat and talk the matter over with the officers while they are here.

Mrs. F. M. Bloomhuff and Mrs. Clem Scott, of Brown county, Ohio, were the guests of Mr. and Mrs. Dudley Bloomhuff of Fifth street yesterday.

## Truss Wearers

Why go to the city to be fitted with a TRUSS and pay Five to Ten Dollars. We will fit you and save you money besides your railroad fare.

THIRD STREET DRUG STORE

## CONTRACT TO BE ASKED OF WHARF OWNERS

Business Men Urge Council to Have Thorough Understanding With Wharfboat Owners Before License Is Issued.

As yet the Greene Line of steamboats and Mr. John Donnell, of Ripley, who are planning to bring a new wharfboat to Maysville and operate it at the Market street grade to care for the freight hauled by the Greene Line of steamboats, have not applied to City Council or to the Wharves and Ferries committee of that body for a license to operate the boat.

Such a license must be procured before they will be allowed to transact business and these business men who are anxious to prevent the monopolizing of the river business at this place were yesterday urging council, and the Wharves and Ferries committee that they look well into the proposition before such a license is granted.

It was pointed out by these business men who were anxious that the Greene Line be given no monopoly on the steamboat business of Maysville that when the license was granted was the time a contract should be secured from the operators of the wharf that they would be compelled to protect local business men. The matter was yesterday brought to the attention of the Wharves and Ferries committee of council and it is likely that a contract will be drawn up for the owners of the proposed new wharfboat to sign before that committee will recommend to Council the issuance of the license.

Just what the contents of the proposed contract will be is not known but this contract is expected to establish wharf rates that will be just and equitable and to prevent the granting of a license that would shut out any other boat line from receiving and discharging freight at the Maysville wharf at any time in the future.

Why not try a Ledger Want Ad? Telephone 318. Plum Street.

## RUSSELL COMPANY GETS BIG FLOUR SHIPMENT

First Carload of Flour From Jefferson Mills Since Last March Received by Local Firm.

The M. C. Russell Company, local wholesale grocers, yesterday received a full car load of 75,000 pounds of Seal of Ohio flour from the mills of the Jefferson Flour manufacturers. This is the first car load of flour this concern has received from this popular mill since last March.

The mill, which was considerably damaged some time ago, has undergone a complete overhauling and is now one of the most complete flouring mills in the whole country. The flour received yesterday is pure white flour and will be sold only with substitutes under the Food Administration's fifty-fifty plan of distribution.

Although the local firm received one or two car loads of flour from this same mill every week under ordinary conditions and before the war, this is the first car load they have received since last March. Despite this fact, however, the community has been kept in plenty of flour although at times it looked as if the entire flour supply of the city would be exhausted.

## CHARLIE CHAPLIN IS HERE

And will be seen in "The Adventure" at the Pastime today. First time ever shown here. Also Shorty Hamilton in "Shorty Bags the Bullhorn Thieves" comedy and a Geo. Ovey comedy. A big fun show for 5 and 10 cents, 1 cent war tax.

## KEEPING SMILING

Our privates have a way of grinning when they salute, an officer in the National army remarked only the other day that shows a higher morale than a dozen ordinary salutes. These smiling Samurais, so Irvin Cobb reports, are giving new will and courage to the Tommy and Poilu. Their dash and enthusiasm is reviving the exhausted Allies and giving them a spirit that cannot know defeat.

Mr. Cobb says: "Always our fellows are smiling. They smile when they enter the trenches, they smile when they charge, and when they return for rest from the heat of battle, still they smile."

The morale of any army is only a reflection of the morale behind the lines. A noted speaker said recently, "If the women of England were to stop, the English army would stop."

America's men and women must be held responsible for keeping that smile on the lips of their soldiers.

Suppose bacon and tobacco is short for twenty-four hours at the front. Do the soldiers put on a long face and grumble and complain. Not at all. To them that is nothing compared to the big business at hand. They treat it as a joke and only keep on smiling.

What are a few food changes to the American people living far from the battle's turmoil and in comparative security? Yet a man was heard to say recently: "Well, the Food Administration can keep on talking until it is black in the face, but I mean to eat what I please." That man is a traitor to his country.

It is the man or woman who smiles at a few physical discomforts or petty self-denials asked of him in regard to food, who is the patriot. Why grumble over the color of our bread or because we do not have roast beef as we would like to have it? These readjustments are as nothing compared to what the soldier is enduring that we may have freedom.

Every man, woman and child should be willing to eat wheat substitutes three times a day, and do it cheerfully, if we can help the boys over there go forward smilingly to a glorious victory.

The five Teutonic princes in the race for the crown of Poland evidently expect the war to end with a "German peace" leaving Germany in possession of all the stolen goods.

The Kaiser told Mr. Gerard that he would stand no nonsense from America, but now it is beginning to dawn on him that he will have to stand a lot of pounding before America is satisfied.

## VICTIM VERSUS VICTOR

(By Gelett Burgess)

Your boy, your friend, may be wounded—what then? Perhaps he will recover; perhaps he may be permanently disabled—what then? He may be blinded, he may lose an arm or a leg or both—what then—afterwards?

His wounds, you know of course, will be "glorious" for a time at least—but what then? How long before he will cease being a hero, and become just a cripple? How long before people will tire of their sympathy? What then? Haven't you thought of this dreadful possibility? Of course you have! Don't you wish to avert it? Of course you do. Well, it can be averted. You can do it.

Vague promises of spiritual benefit are poor consolation for the soldier who has been disabled in the service of his country. A real man's ambition needs more fuel than philosophy. It needs a dignified practical field, for endeavor. Discarding all mere sentimentality, then, what after his convalescence, will be his real position in society? Thus he to look forward only to sitting in a chair and being supported— to becoming a night watchman or an errand boy?

No. This is the literal truth. Many, even most disabled, men will have a chance to be better off, handicapped though they are, after the war than before. No better off physically; that of course cannot be; but actually better off financially, socially and mentally.

But, to bring this blessing about, you, his friends and relations must help. By your attitude you can decide whether he is to rise to self-respect and usefulness or to fall to the status of a mere parasite and object of pity. All that is necessary is for you to understand his opportunity, and insist that your boy avails himself of it.

Already the Government is planning the greatest educational work ever conceived. Every disabled man discharged from the hospitals—beginning indeed, at his bedside, long before he is discharged—will be given, if he will accept it, a thorough course of vocational instruction in the trade or profession for which he is best suited. These courses lasting just as long as is necessary to make him

competent, will make him able to compete successfully even with whole men. Think what that means—afire technical education for your boy! Perhaps he was a machinist. With efficient instruction that he could not before afford, he may fit himself to be a foreman in his old shop. If before he was wounded, he was only a "hand," he may be taught enough to make him an expert. He for the war he took any job he could get. Under the supervision of the best obtainable vocational teachers, he will be trained for the job for which he is the best adapted or most inclined.

Do such possible results seem marvelous? Here in the United States, civilians have achieved inspiring victories over their so-called disabilities. Already in England, France and Germany the work has been going on; and all this has been accomplished. Just look at these authentic cases and see:

A. Clay, of the Royal Engineers, was paralyzed in the right arm. Before the war he was a butcher. Now he is a telephone engineer.

C. B. Wooding, a sailor in the British Navy, lost his right leg. Before the war he was a laborer; now, a hand boat-maker.

C. E. Jones, of the British Royal Marines, lost his right leg. Before the war he was a gardener; now an electrician in C. A. V. Magenta Works.

In the soldier-student list in the vocational schools at Alberta there is a lumberman who, after having his right leg destroyed in the war, was educated in motor-mechanics, and afterwards fitted himself for the civil service and now holds a position in the Canadian customs at a \$2,000 salary.

## GOOD CAUSE FOR ALARM

These Figures Will Make Maysville People Take Notice.

Deaths from kidney disease have increased 72% in twenty years. People overdo nowadays in so many ways that the constant filtering of poisoned blood weakens the kidneys. Beware of fatal Bright's disease. When back-ache or urinary ills suggest weak kidneys, use Doan's Kidney Pills, live carefully, take things easy and avoid heavy eating. Doan's Kidney Pills command confidence, for no other kidney remedy is so widely used or so generally successful. Home endorsement is the best proof of merit. Read this Maysville resident's story:

Miss Dora Edgington, Wood St., says: "I have used Doan's Kidney Pills and from the results received, I have every reason to recommend them. At times my kidneys have become weak and have been irregular in action. My back has ached, too, and has been very weak and lame across my kidneys. When I have used Doan's Kidney Pills for this trouble, they have never failed to relieve the complaint in a short time. I can truly advise anyone to get a box of Doan's Kidney Pills at Chasler's Drug Store. It troubled in that way."

Miss Edgington is only one of many Maysville people who have gratefully endorsed Doan's Kidney Pills. If your back aches—if your kidneys bother you, don't simply ask for a kidney remedy—ask distinctly for DOAN'S KIDNEY PILLS, the same that Miss Edgington had—the remedy backed by home testimony. 60c all stores. Foster-Milburn Co., Props., Buffalo, N. Y. "When Your Back is Lame—Remember the Name."

Our observation is that when a woman has had the same cook for five years and the same husband for ten, she brings mostly on the cook.

As a general thing, the kind of man who plays poker with his wife doesn't make enough out of it to get into a regular game.

## INSTRUCTIONS ARE GIVEN GRAIN DEALERS

Bulletins Issued From State Food Administrator's Office Show That Price For Wheat Formerly Announced Here Is Correct.

The attention of grain dealers and farmers is called to the following bulletins issued by Fred M. Sackett, Federal Food Administrator for Kentucky.

In paragraph 3 of Bulletin No. 62, Mr. Sackett assumes that the lowest freight rate from this section to Newport News is 16c, whereas the freight rate from this point to Newport News is 14.10. It will therefore be seen that the statement inserted in last Saturday's papers by me, giving \$2.16 as the lowest price which should be paid for No. 2 wheat delivered in Maysville and \$2.12 the lowest price which should be paid for No. 3 delivered in Maysville is correct. Those purchasing wheat will do well to observe strictly the requirements of these bulletins.

W. D. COCHRAN,  
Mason County Food Administrator.

BULLETIN No. 63  
To All Flour Millers in the State of Kentucky

1. For your information, and in order that you may be able to give intelligent answers to growers, dealers and millers on the subject of wheat of the 1918 crop:

2. The shipping value of wheat at your station based on the price at the best (terminal) market given in my bulletin No. 55, less the freight to that market. For most all points in Kentucky, Newport News is the most favorable market, though it is well to figure on the other markets to be sure.

3. The Newport News price of No. 1 wheat is \$2.38; your lowest rate to that point is 16c, the shipping value of No. 1 wheat at your station is \$2.22; No. 2 wheat is 3c less than No. 1; and No. 3 is 7c less than No. 1.

4. As in Kentucky there are few growers who raise enough wheat to be able to ship a car load of wheat to the terminal market, and as it is more satisfactory to them to sell it locally, the grower must be prepared to sell to the grain dealer or miller at a fair local price on the assumption that the wheat must be bought by the miller or grain dealer on a basis which will deliver it to the Grain Corporation at the buying markets. This would be somewhere about 5c per bushel less than the shipping value as above indicated.

5. Having thus arrived at the minimum price at your station, it is possible that when the maximum flour and feed prices for mills at your station are determined by the Grain Corporation, it will be at such a price as will allow any mill located there, if it can sell its flour at this maximum price in its local trade, to pay for home-grown wheat something more than the above minimum price; but that additional price of wheat is dependent upon local mills having a flour trade that is urgent enough to make it possible for them to sell flour at the maximum prices given for your station.

6. Buyers who pay less than the basis as covered by paragraphs two and four subject themselves to the

charge of profiteering and it consequently.

FRED M. SACKETT,  
Federal Food Administrator For Kentucky.

BULLETIN No. 66  
Issued to All Federal Food Administrators in Kentucky and Wheat Flour Millers

On Saturday, July 20th, there was issued from this office Bulletin No. 63. This bulletin established a shipping value of wheat to be paid to the growers at all points in Kentucky, and stated that provisions had been made to see to it that this value was carried through in the case of all sales. Bulletin No. 63 has been submitted to, and has the approval of the United States Grain Corporation.

Knowing that many crops of wheat have been taken to mill by growers, and dealers have paid for them less than the value provided in this bulletin, but with the understanding that when the price was established the balance of the payment would be made, I should be glad to hear that these settlements had taken place at all mills. The Grain Corporation will have fieldmen immediately in Kentucky to adjust unfair prices in buying, and those purchasers who have paid for wheat in accordance with the Grain Corporation's shipping value will not be subject to criticism.

FRED M. SACKETT,  
Federal Food Administrator For Kentucky.

NO CHARITY—BUT A CHANCE

(By Herbert Kaufman)

Close examination of your family tree will disclose a monkey sitting on the bottom branch. Examine it again and you'll find a prognathous, long-tailed, upstanding brute, covered from head to foot with coarse, springy hair.

Without tails our dim ancestors could not have swung through the upper reaches of the primeval jungle and thus have escaped from sundry voracious horrors that infested the dawn. When beasts grew weaker and great-great-grandfather, his progeny descended to terra firma and, for lack of employment, caudal appendages and long, strong, flexible toes disappeared from the species.

In brief, we educated ourselves out of their use, and Nature, always thrifty, ceased to waste material where it wasn't essential.

As soon as man learned to build houses and wear pelts, he removed him from the class of fur-bearing animals; we became smooth-skinned—evolution shaved us and simplified our physiques. Evolution constantly says: "Exercise facilities and functions or lose them. What limbs and instincts you don't require, progeny shan't acquire. It's my particular job to reshape you for the environment, for instance, I'm at work eliminating your toes altogether. As you avoid exertion and institute convenience—elevators, trains, automobiles, telephones, automatic machinery and the like—I shall correspondingly divert attention from legs and arms and devote myself to the improvement and extension of your nervous system.

"Behold how your stodgy fingers have thinned and tapered—but consider how adept they are. Your neck is longer; the jugular vein and throat are not in peril nowadays. Formerly I had to guard it for you by exposing the least possible area and by hiding vulnerable cords under tough layers of muscle and cartilage.

"I've pulled in your chin and removed oneness of bone from the jaw, but your forehead is rising century by century and your whole head is rounder; so that there may be ample space to add gray matter."

The foregoing may seem a far-fetched introduction to the subject of crippled soldiers and their reconstruction, but when one pauses to reflect that a tailless forebear was even more historic ages than a legless being is in this period of wheel-chairs, elevators, typewriters, adding machines and eyeglasses, the preface

is quite germane to the subject.

Few questions demand more insistent attention than this matter of maimed folk. Europe is permanently injuring a million men annually, but not disabling them—with negligible exceptions, these victims of battle can be restored to self-support.

The staggering cost of maintaining such a multitude at State expense has forced society to consider ways and means of applying their remaining efficiency to suitable tasks.

We repudiate the callous conviction of recent pasts, that amputation cuts off opportunity; we dissent from the cruel prejudice which hitherto sequestered the blind in depressing asylums, or the communal un-economy which sentenced them to the beggar's hand-organ and tin cup.

All that is done with, and with it must go unworthy, primitive abhorrence and debasing pity. We're going to put these people where they belong: where their sound energies and sturdy intelligence can be turned to mutually profitable account.

A missing foot is not a drawback for a desk responsibility. One hand or two play no part in the exercise of superintendence. Imagination needs no eyes; it has a thousand. There are few heights prohibited to those who can find ideas in the dark.

The vital reconstruction is not for the surgeons—they'll do their bit, never fear.

We, the stay-at-homes, the sons and brothers of scarred and maimed men, sacrificing their persons, writing in agony for our sakes—mangled in defense of our wealths and liberties—holding the gate against barbarism—we must be reconstructed, too—must reconstruct our impulses—must lose the Tarpeian Rock attitude toward the crippled—must learn to measure the worth of a fellow by his enterprise and capacity and give him the preference at every post and in every engagement—if he can deliver the goods. A civilization that won't do its duty by its defenders isn't worth fighting for—prepare to prove that this one is. They don't want your charity—they demand their chance.

METHOD OF DISPOSING OF GARBAGE AT DENVER

Apocryph of the present garbage utilization campaign it is interesting to note the Denver, Colo., method of using the city's garbage. The city officials make a yearly contract with a feeding company to collect and dispose of the complete garbage output of the city. A nominal sum is paid to legalize the contract, so that, in effect, the city has its garbage collected and disposed of free of cost.

This feeding company, is a cooperative organization, each member feeding to hogs on his own premises the proportion of garbage the firm allows him to collect. The feeding company is required to give a bond of \$5,000 to the city. One member gets 60 per cent. of the garbage and has a ranch accommodating 5,000 hogs within 5 miles of the city.

To insure prompt and sanitary collection the city assumes responsibility. All trouble calls are sent to the city department of inspection. This department then phones the company, which has a light auto-delivery truck to gather all garbage that may have inadvertently been missed by the regular collectors. The company also employs an inspector, who is given official recognition and standing by the city, and whose work it is constantly to inspect garbage and garbage conditions. The regular civic health inspectors also make inspections in this regard.

This arrangement has worked extremely well in Denver. The garbage is collected in an entirely satisfactory and sanitary manner at no cost to the city, and at a cost to the members of the feeding company of about \$2.50 a ton.

Maybe you also have noticed how unprofitable it is for a woman to dress like a chicken and waddle like a duck.

## PRODUCTION CAMPAIGN PROGRESSING

The production campaign of the Fuel Administration, whereby it is intended to vastly increase the output of the mines is meeting with encouraging response. Already there has been an appreciable increase in the product of the mines, although there has been no addition to the man power at the mines. The addresses being made by John P. White and other speakers for the Production Bureau throughout the country, are being attended by large gatherings of miners, and the men are displaying a highly patriotic spirit.

It is the aim to increase production as much as possible with the present labor forces before seeking to attract recruits to the mining fields. In some of the fields, if not in a majority of them the workmen are reported as making an average of only three and one-half days per week. If the average could be raised to five days per week sufficient coal could be mined to bring the mine output to one hundred per cent. of capacity.

With the first week of July the first

## Conversion Of Liberty Bonds

3 1/2% Liberty Bonds of the first issue, 4% Liberty Bonds of the second issue, and 4 1/2% Liberty Bonds obtained by converting bonds of the first issue into bonds of the second issue can be converted into 4 1/2% bonds up to November 9, 1918. After that date no further rights of conversion will attach to the 4 1/2% bonds, either the original bonds of the second issue or those obtained by conversion of bonds of the first issue. All of the 4 1/2% bonds are non-convertible.

Conversion bonds may be converted into either coupon or registered bonds but registered bonds only will be exchanged for registered bonds and will be inscribed with the names of the registered owners of such bonds.

All matured coupons, including those maturing June 15, 1918, and May 15, 1918, must be detached from the 4 1/2% bonds before they are surrendered for conversion. The converted bonds will bear interest at the rate of 4 1/2% from June 15, 1918 and May 15, 1918 respectively, and have the same maturity dates as the original bonds.

This bank is prepared to receive and handle all of the above bonds for conversion and places its facilities at the disposal of its customers and the Government.

locomotive of the fourteen hundred ordered by the Railroad Administration, was ready for delivery. Other deliveries will follow quickly. Also, deliveries have been started upon the orders for fifty thousand coal cars. As these locomotives and cars are brought into service, the railroads will be able to accept a much larger tonnage of coal.

In anticipation of this improvement in railroad facilities the Fuel Administration makes its appeal to the mine workers to stand at their posts ready to load all the cars that are offered.

## COCKLEBURRS EARLY

O. L. Harper, who lives in the Clear Spring section, on Hickory, route 3, brought to the Times office Friday morning a stalk of fully developed cockleburrs that grew and matured this year. He pulled the stalk on May 30. The earliest lies in the fact that they are about three months in advance of the time they are due to develop, as the crop of cockleburrs is never thoroughly developed until along in the month of September. Mr. Harper says he has shown the stalk to many old residents and they all declare they never heard of such an early development before. He left him at the Times office and anyone who desires the seed of this extra early variety of cockleburrs may have same by cutting. Stand back, men, don't shove.—Mayfield Times.

## CONSTIPATION

And Sour Stomach Caused This Lady Much Suffering. Black-Draught Relieved.

Meadowville, Ky.—Mrs. Pearl Patrick, of this place, writes: "I was very constipated. I had sour stomach and was so uncomfortable, I went to the doctor. He gave me some pills. They weakened me and seemed to tear up my digestion. They would gripe me and afterwards it seemed I was more constipated than before."

I heard of Black-Draught and decided to try it. I found it just what I needed. It was an easy laxative, and not hard to swallow. My digestion soon improved. I got well of the sour stomach, my bowels soon seemed normal, no more griping, and I would take a dose now and then, and was in good shape.

I cannot say too much for Black-Draught for it is the finest laxative one can use. Theodore's Black-Draught has for many years been found of great value in the treatment of stomach, liver and bowel troubles. Easy to take, gentle and reliable in its action, leaving no bad after-effects, it has won the praise of thousands of people who have used it. NC-135

## Ruggles Camp Meeting

Ruggles Campmeeting offers the finest program for the coming meetings they have ever had. Meetings will be held from July 25th to August 4th, inclusive. Revs. E. R. Overley and W. H. Davenport, superintendents, and many of the leading preachers in Kentucky will be present and otherwise help make the meetings a success.

Rev. Don W. Nichols, a most successful evangelist, missionary lecturer, and world traveler, will conduct the evangelistic services the second week and preach the last Sunday.

Rev. D. Lee Aultman, D. D., of Cincinnati will be the preacher for the first Sunday.

Carl Dadds, Maysville's popular soloist and choros director will have charge of the choir with Miss Lulu McClellan, accompanist.

Young peoples' work in charge of E. R. Overley; children's work in charge of Mrs. John (Chap.)

All privileges under competent management. Hotel rates reasonable. For information relative to cottages, rooms, or other matters, apply to I. M. LANE, President.

Epworth, Ky.

## WHY "Central" cannot

Answer Questions

The duty of the Switchboard Operator is to answer your calls and get connection for you.

If she stopped to answer questions, the number of calls would pile up and the service would be delayed; this would be an injustice to the other subscribers.

When, in response to a question, the operator says: "I will give you Chief Operator" she is obeying her instructions.

Always ask for "Chief Operator" and your questions will be promptly answered.

## RUGGLES CAMPMEETING IS OPENED TODAY

Great Religious Meeting in Hills of  
Lewis County Begins Today—  
Local People Attending.

The annual camp meeting at Ruggles' Campgrounds will be formally opened today.

Already a great many of the Maysville people have come to the famous old campgrounds to spend ten days but today a great many more will leave the city for the wilds of Lewis county where they will enjoy themselves in one of the prettiest spots in this whole country for the next two weeks.

Plans for the services at Ruggles for this year are in perfect shape and prospects for a very successful time were never brighter. Some of the biggest preachers in the Methodist Church are on the program and experts in each line are in charge of the various departments.

Arrangements have been made to take care of the Public Ledger's circulation in camp. Mr. J. Harry Richardson, who being an officer of the Campmeeting Association, is in a position to know what is going on, will have charge of the Public Ledger's news bureau at the campgrounds and will also look after the circulation. A complete account of the important happenings at Ruggles will appear in the Public Ledger from day to day.

### SMALL BOY IS SERIOUSLY ILL

Walter Scott Worthington, son of Mr. and Mrs. Walter Worthington of Forest avenue, was in a very serious condition yesterday and the attention of three physicians was required. Several days ago the lad ran a nail into his foot and something like tetanus has developed. Reports from the boy this morning, however, are that he is somewhat improved.

### DIED IN DETROIT

Miss Mamie Housh, formerly of this county, died at Detroit, Mich., Tuesday evening. The body will be brought here this afternoon at 12:50 over the C. & O. and will be taken to Washington. Funeral will be held from the Washington M. E. Church this afternoon at 2 o'clock and burial will be made in the Washington cemetery.

The Mason County Exemption Board announced yesterday that they expected to begin the physical examination of the young men who registered last June the first of next week. It is expected this examination will be held on Monday and Tuesday.

One of the Best Speakers  
Ever Heard Here

Those people here who have heard Dr. J. C. Achison speak, say that there is a great treat in store for all those who hear him at the First Presbyterian Church on next Friday evening when he will tell something of the work that is being done by the Y. M. C. A. in the war zone.

Dr. Achison, who was at one time President of the Kentucky College for Women at Danville, Ky., is now President of the Pennsylvania College for Women at Pittsburgh and has for many years been very active in Y. M. C. A. work. When the officials of the American Y. M. C. A. wanted to know something about the real work they were doing among the soldiers in Europe, the officers selected Dr. Achison to make the trip of inspection to the very battle front to bring back with him the story of the work being accomplished.

The prominent educator is said to be one of the best speakers ever heard in Maysville and with such a subject, it is certain that he will be very interesting.

The First Presbyterian Church should be filled to its capacity and as all patriotic meetings held in Maysville are always large ones and this is the first time the local people have had an opportunity to hear from the Y. M. C. A. work from one who has inspected it, the promoters of the meeting feel certain that those who want to hear Dr. Achison will have to come early in order to get seats.

### A TREAT FOR THE BLUES—SEE CHARLIE CHAPLIN TODAY!

If you are worried, in trouble or feel "all out of sort" you should go see Charlie Chaplin in "The Adventure" at the Pastime today. This is truly a wonderful Chaplin comedy and the first presentation of this picture in Maysville.

In addition to this, Shorty Hamilton, another funny fellow will be seen in a two-reel comedy and George Ovey will also appear in a good comedy, making one of the biggest fun shows that was ever presented.

Manager Triebel is going to offer this show at the usual popular prices—Children 5c, adults 10c and 1c for war tax. Four performances daily. Afternoon at 2 and 3:20. Night at 7 and 8:20.

### MISS MATHEWS IS IN FULL CHARGE

Secretary Carl Dodds, of the Maysville Chamber of Commerce, has been granted a ten days' leave of absence by the directors and he will spend the vacation at Ruggles' Campgrounds where he will be soloist and chorus director during this year's meeting.

Miss Mary Mathews his efficient assistant is in full charge.

### SCOUTS TAKE LONG HIKE

The Maysville Boy Scouts in charge of Scout Executive Chambers spent several hours Tuesday evening in the country on a long hike. The youngsters returned home about 10 o'clock in the evening pretty well fagged out but full of ginger. They will lengthen their hikes each time they go out.

Mr. Thomas Costigan, of Flemingsburg, is spending a week visit relatives and friends in Maysville.

REV. DON W. NICHOLAS, Evangelist

The management of Ruggles Campmeeting feel that in presenting Don W. Nicholas as the evangelist this year that they have secured one of the best men for the work in the Methodist church.

Referring to him Bishop McDowell one of the leading Methodist bishops says, "Dr. Nicholas is one of our best preachers, a rare and sane evangelist. He is glib, clear, and has a natural wit and with it blessed with great oratorical power."

"He has a strong, clear, resonant voice, both pleasing and captivating. We have heard him many times with profit and delight. He has been a world's traveler and is a close observer of men and of things."

## WOMEN PLAN DEMONSTRATION FOR BIG FAIR

Women of the United States Food Administration Plan Demonstration at the Germantown Fair—Meeting on July 31st.

In response to directions from Washington to make a point of Food Administration exhibits at the county fairs of Kentucky, the Food Administration has sent out to all Kentucky County Chairmen of the Conservative Section of the Food Administration, instructions to utilize the crowds attending their county fairs for the purpose of more widely advertising the necessity for great food conservation, and of inspiring more people to make greater effort and sacrifice. To this end the County Food Conservation Chairmen were instructed to procure space on the fair grounds and arrange for a tent or booth.

The Central Committee with Miss Frances Jewell of Lexington as chairman is prepared to help with suggestions and plans for exhibits.

The object of the entire programme at the fairs is to show the necessity and patriotism of saving, exportable food for our armies and allies and of eating substitutes which are just as nourishing. The technical methods of preparing substitutes will be taught at a booth or tent by a special Home Demonstration Agent from Kentucky State University. These demonstrations and exhibits are to arouse the untrained, to instruct the untrained and to strengthen all.

Those who live on a great east and west trunk line like the Chesapeake and Ohio railroad and who daily see the great troop trains pass through are forcefully reminded that there will be fewer men in this country next year to produce food and more of our men on the other side to be fed as well as our allies. The allies will win if they can be fed; but they are defeated without food and food must go to them from America.

Demonstration at Germantown Fair  
In accordance with instructions, a meeting of the Food Conservation, Food Production and Home Economics Sections of the Mason County Unit Kentucky Division United States Food Administration was held at the

First Presbyterian Church Wednesday morning to consider carrying out the Federal and State instructions regarding an exhibit at the Germantown Fair, August 28, 29, 30 and 31.

Seventeen of the twenty-two preachers in the county, Maysville ministers, one, two, three, four, five and six, Fluttnow, Dover, Germantown, Fern Leaf, Washington, West Maysville, East Maysville, Lewisburg, Orangeburg, Plainville and Dietrich were represented, while Minerva, Hill Top, Murphysville, Sardis and Helena had no representative at the meeting.

The Chairman of Food Conservation for Bracken and Robertson counties sent expressions of their enthusiastic willingness to cooperate with any plans made by the Mason county organization.

Participants Wear "Hoover Dress"  
It was voted to have a tent on the Germantown Fair grounds, to ask for two demonstrators from the Home Economics Division of the Kentucky State University Extension Department, and to have a parade in which the entire Food organization of the county would take part with such of the state officers as may be present.

It is the request of the State Administration that all women who participate in this demonstration shall wear "Hoover Dresses," the official uniform for women of the United States Food Administration. The dress is made of blue wash material with white collar, cuffs and cap with a United States emblem on the cap and left sleeve. The Federal Government furnishes free of charge the pattern and the insignia.

Every woman who has signed a Food Pledge Card is a member of the Food Administration and should provide herself with a "Hoover Dress," a simple, practical housewife's dress.

A large supply of patterns and insignia came in the parcel post Wednesday afternoon and can be had by telephoning the County Chairman, Miss Alice Lloyd, 8 West Third street, Maysville, phone 340.

Meeting to Be Held Wednesday, July 31  
Each Colonel is expected to hold a precinct meeting this week and acquaint her constituents with proposed plans. Another meeting is to be held at the Third Street Methodist Church Wednesday, July 31, 2 p. m. At this meeting all Colonels should be present, bringing with them those women in their communities who have a tal-

ent for doing things. All members of the Food Administration will be heartily welcome.

Everybody Needed  
Our motto should be: "To every man, woman and child, according to his need, from every woman according to her store." Can you sew? Help make "Hoover Dresses," banners, insignia, etc. Can you use the typewriter? Help with the volume of clerical work. Can you drill children, arrange pantline, etc.? You are needed. Have you a fertile brain? Propose slogans and interesting special features. Have you an automobile? Take to the fair on parade day some one who has not. Have you social grace? Be hostess at the tent. Can you import information? Answer questions at the tent.

State Officers Expected  
Mrs. Morris Gifford, State Chairman of Conservation, and Mrs. Helen B. Walcott, State Chairman Home Economics, have both written that they would take part in the parade. Mr. Sackett, Federal Food Director for Kentucky, will be here unless Mr. Hoover should return from Europe and summons him to Washington.

The Secretary of the Germantown Fair has cordially consented to give the Food Administration space for a tent. Let us make the most of the opportunity.

WOMAN'S DANGER PERIOD  
The period between forty-five and fifty-five years of age is said to be a crisis or danger period in a woman's life which tests her for her fitness to continue in the race. It is then that she suffers from such annoying symptoms as heat-flashes, nervousness, headaches, "the blues," or dread of impending evil, or some orament disease in the system becomes active. When a woman is passing through this crisis there is one tried and true remedy, Lydia E. Pinkham's Vegetable Compound, which after forty years of success is now considered the standard remedy for woman's ailments.

Mr. Harry Richardson, city mail carrier in the East end of the city yesterday entered upon his annual vacation and will spend the time as usual at Ruggles' Camp Grounds. Mr. Ira Warren, substitute carrier, will take charge of Mr. Richardson's route.

Dr. J. S. Locke, County Health Officer, spent yesterday at Minerva on professional business.
